

## "KIT KITCHEN" CORNER UNIT

<b>Access</b>	The units are delivered by lorry with its own forklift to load and unload them. The units can be positioned into a marquee or building using the forklift and then can be moved into position by hand with pallet trucks provided by us. The units can only be moved by hand on a firm level base, it will not be possible to move them manually over a rough or grass surface.
<b>Power</b>	Each unit requires 1no. 16amp single phase power. These can be from either the mains or a generator.
<b>Water</b>	Not required for this unit.
<b>Drainage</b>	Not required for this unit.
<b>Gas</b>	No gas required for this unit
<b>Dimensions</b>	The largest component of the unit is 800 (L) x 800(w) x 2200 (h)
<b>Equipment</b>	The corner "Kit Kitchen" comprises of a stainless steel work surface with shelving underneath, 13amp sockets and overhead lighting. This unit joins any other single sided units through 90° avoiding wasted space in the corners.
