

SINGLE SIDED SINK "KIT KITCHEN"

Access

The units are delivered by lorry with its own forklift to load and unload them. The units can be positioned into a marquee or building using the forklift and then can be moved into position by hand with pallet trucks provided by us. The units can only be moved by hand on a firm level base, it will not be possible to move them manually over a rough or grass surface.

Power

Each unit requires 2no. 32amp single phase power. These can be from either the mains or a generator.

Water

A mains supply is preferable and we will connect to this, alternatively a suitable bowser.

Drainage

The units can gravity drain or pump to a suitable drain or tank.

Gas

No gas required for this unit

Dimensions

The largest component of the unit is 2440 (L) x 800(w) x 2200 (h)

Equipment

The single sided sink "Kit Kitchen" have as standard hand wash sink, large pot wash sink, dishwasher, pre-rinse spray, hot water heater, paper towel holder, soap dispenser.
